-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 1-10, 13, 14, 16-19, and 22 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The previous invention was a terminal connector assembly, which did not require a conduit or a flexible core element extending through the conduit.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-10, 13, 14, 16-19, and 22 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 20 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 20 and 21, it is unclear how the swivel tube, the sleeve, the isolator material and the cover are part of the terminal connector assembly

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 11 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Reeder (US 4,682,513).

Reeder discloses an elongate body (12) having a bore disposed longitudinally there through and an abutment end (see Fig 2), a first arm (48) unitary with and extending from the elongate body in a plane (see Fig 2), having a proximal end and a distal end and comprising a first projection (outer end of 48) from a surface of the first arm (see Fig 2), and a second arm (48) unitary with and extending from the elongate body in a plane (see Fig 2), having a proximal end and a distal end and comprising a second projection (outer end of 48) from a surface of the second arm, wherein the first arm comprises a first tab member (46) extending from the distal end of the first arm in a direction offset from the plane of the first arm (see Fig 2) and wherein the second arm comprises a second tab member (46) extending from the distal end of the second arm in a direction offset from the plane of the second arm (see Fig 2), wherein the first tab member and the second tab member each facilitate flexure of the first arm and the second arm, respectively, when the first tab member and the second tab member are moved toward the longitudinal axis of the bore see Fig 2).

Re claim 12, the first tab member and the second tab member extend from the first arm and the second arm, respectively; in a direction substantially parallel to the longitudinal axis of the bore (see Fig 2).

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
